## NOW PRODUCING OIL

That's what counts, profits in oil come from oil. We are ready to deliver to pipe line approximately 40 to 50 barrels of oil every day in the year from our Well Number One in the Paola Fields of Kansas. This producer came in on April 2, just thirty-three days from the time we began to sell our stock.

Well Number Two was started on April 13 within 300 feet of Well Number One. We are going at a speed seldom equaled by any company. Our Paola lease in itself will be completely developed at the earliest opportunity. Well Number Two is expected in this week.

Well Number Three will be started in a few days 300 feet to the north of Well Number One, Paola Oil Fields of Kansas.

In one month we have completely financed five wells. We are exceeding the speed limit. We are making money fast. Every well is worth thousands of dollars.

We have leases in Paola and Garnett, Kansas, Warm Springs, Thornton, Upton Fields, Salt Creek, Teapot, Shepard Dome, Tongue River, Coal Creek, Palmer Dome, in Wyoming. The first six named are now producing oil.
